PROFESSIONAL QUALITY DECKS

100% Canadian Hard Rock Maple.

Professional craftsmanship - over 15 years of experience

Unparalleled quality control & automatic technology

Hard Maple Log Import

Rotary Cutting

Veneers Dry

Veneer Dye

Cold Pressing

CNC Shape Cutting

Varnish Spraying

Strict Inspection

WOOD PROCESSING

We import a substantial volume of container logs from the United States and Canada every year.

In our own wood pre-processing workshop, we do roll cutting, veneer drying & dyeing, each process is under strict supervision.

DECK PRODUCTION

Our factory has different concave molds and CNC machines for cutting shapes, to meet the demands of professional skaters.

From the glue to the wood, we handle all processes by ourselves at the most professional level.

CUSTOM GRAPHIC

Our industrial UV digital printing is the most technological model in the market, ensuring vibrant colors and intricate details for your custom designs. For traditional silkscreen printing workshops, we have adapted automatic equipment to offer better printing effects.

CONCAVES SHAPES AND SIZES

3 in House Shapes: Round, Blunt and Tapered

OUR MISSION

Product is our passion! For the last decade, we have relied on the strength of our local and global relationships, striven for quality in everything we do, and believed in craftsmanship above all else. From the original point of conception to the delivery of the final product, we will assist in all stages of design, sourcing, product development, and global drop-shipping. Whether you're looking for a reliable, long-term partner or a one-time order, we aim to create premium boards with numerous possibilities for your brand.
